

IT'S CRUNCH TIME!

Top Savings go to DACO practices that finish the year strong!
Remember, the next \$3,000 you save could earn you
\$50,000 in Shared Savings.

This Holiday Season, I Commit To...

- Complete Annual Wellness Visits on at least 80% of my ACO Panel**
 - ✓ No Medicare patient should leave your office without an AWV if they are eligible.
 - ✓ Utilize the DACO Support Center to help identify eligible patients and schedule appointments.
- Ensure Physician Vacations are COVERED**
 - ✓ Patients WILL utilize the ER if your office is closed
 - ✓ Encourage Urgent Care. Have your answering service/voicemail suggest the nearest facility rather than the Emergency Room.
 - ✓ Consider other DACO clinics in your area to refer patients to during vacation.
- Increase TCM by 20% during the next 3 months**
 - ✓ Use your local hospital's alert service (fax, portal, etc.) to monitor admits and discharges. The DACO Support Center can help.
- Call ER Frequent Flyers weekly through the end of the year**
 - ✓ Identify your Top 5 ER FFs and reach out weekly to reduce hospitalizations
 - ✓ This "Phone-a-Friend" program can have a major impact around the Holidays
- Increase Availability**
 - ✓ Consider extending office hours (early AM/late evenings/Saturday clinics) to make up for Holiday closures
 - ✓ Be open for more same-day appointments around holiday closures

I will support my ACO and fellow providers by completing **at least 3** of these Crunch Time Goals through the end of the year.

Provider: _____ Date: _____

Practice: _____
